DETAILED ACTION

Election/Restrictions

1. Response to Election/Restriction of December 10, 2004 was received on January 28, 2005. Applicant's arguments regarding the election are persuasive. Therefore, claims 31 and 32 have been rejoined and claims 1-32 have been examined.

Allowable Subject Matter

2. Claims 1-32 are allowed.
3. The following is an examiner's statement of reasons for allowance:
4. With respect to independent claims 1, 19, 31 and 32, prior art fails to disclose in combination with other recited limitations of the claims, a coupling in a wafer inspection metrology system for placement between a floating inspection chamber and a fixed transfer chamber. The coupling prevents transfer of vibrations between the chambers and seals a passage between the chambers. The coupling includes a first flange attached to the inspection chamber, a second flange not in contact with the first flange and attached to the transfer chamber, and a looped diaphragm having an outer peripheral edge region secured to the first flange and an inner peripheral edge region secured to the second flange to thereby couple the flanges together and close a space between the flanges.

Claims 2-18 and 20-30 are allowed by virtue of their dependencies on the independent claims 1 and 19.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Goudonnet et al. disclose (5,306,918, column 10) an evacuated system surface analysis of samples, in which a support plate is isolated from external vibrations using "Viton" type fluoroc elastomer.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments of Statement of Reasons for Allowance".

7. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
